

# PROFYLE FLAT 5

## UNDERLAY ACOUSTIC INSULATION

VERTICAL DECOUPLING ELEMENT MADE OF ADHESIVE POLYETHYLENE

### ■ TECHNICAL SPECIFICATION

Acoustic insulating bands available in rolls made of polyethylene, white colour, thickness of 5 mm, with an adhesive band for easy application. Height 50 mm, density 22÷25 kg/m<sup>3</sup>.

### ■ TECHNICAL SPECIFICATION

Thickness	5 mm
Length	25 m
Width	50 mm
Dynamic stiffness s'	36 MN/m <sup>3</sup>
Reaction to fire	F
Thermal conductivity coefficient $\lambda$	0,035 W/m K

### INSTALLATION INSTRUCTIONS FOR PROFYLE FLAT 5

- 1 Fix the Profyle Flat 5 around the bottom of the surrounding walls

- 2 When the flooring application is completed, cut the exceeding part of the edging strips
