

PROFYLE FLAT 5

UNDERLAY ACOUSTIC INSULATION

VERTICAL DECOUPLING ELEMENT MADE OF ADHESIVE POLYETHYLENE

■ TECHNICAL SPECIFICATION

Acoustic insulating bands available in rolls made of polyethylene, white colour, thickness of 5 mm, with an adhesive band for easy application. Height 50 mm, density $22 \pm 25 \text{ kg/m}^3$.

■ TECHNICAL SPECIFICATION

Thickness	5 mm
Length	25 m
Width	50 mm
Dynamic stiffness s'	36 MN/m^3
Reaction to fire	F
Thermal conductivity coefficient λ	$0,035 \text{ W/m K}$

INSTALLATION INSTRUCTIONS FOR PROFYLE FLAT 5

- 1 Fix the Profyle Flat 5 around the bottom of the surrounding walls

- 2 When the flooring application is completed, cut the exceeding part of the edging strips
